

## Paper Helicopters

1. Cut along all the solid lines on the Helicopter
2. Fold flap A forward and flap B to the back.
3. Fold along the line E upward to give a weight at the bottom.
4. Fold flaps C and D backwards along the dotted lines, You can use a paper clip to hold it together at the bottom.
5. Now this should look like the diagram below.
6. You can scale up this model as much as you want. You just drop the model with the blades facing upwards and the weight at the bottom facing downwards for the best results.

! You might want to color them in before you cut them out
